# BEAUTY MIST

*A modern breakthrough in skin care and protection from the sun, bacterial infections, nits and skin problems*

Michael J McCammon N.D. Copyright 2015

## BENEFITS OF BEAUTY MIST:

- \* Assists to correctly thin the blood and help form healthy red blood cells. It assists the healing of the skin, stops the pain, blistering and scarring of the skin tissue in response to radiation and heat of the sun.
- \* Inhibits the growth of anaerobic bacteria, head lice, fungi and viruses due to its disinfectant action. However unlike other anti-bacterials it has not harmful effects on the overall immune system such as building resistance/ tolerance or allergic reactions
- \* Protects the skin from the harmful effects of sun ( radiation) It is not however a sun block but works by protecting the cell and tissue environment. through better circulation, non electric heat and promoting correct blood pH. Assists healing of radiation burns of deeper cell tissues which are caused by radioactive elements in the water, sun, air and food
- \* Beauty mist is a deodorant and mouthwash which absorbs an odour but keeps a natural fragrance.
- \* Assists the healing of acne and other skin rashes such as athletes foot. Assists the healing of uro-geniatory rashes, itching and feminine hygiene when used with the Blood Purifying tonic and Minerals.
- \* Increases fibroblastic and lymphocyte activity with increased epithelial cell growth, resulting in rapid healing of injured tissue.

\* Increases the immune response by promoting increased phagocytic cell activity in destruction of bacteria and other foreign substances. Other germicides “kill” bacteria and have a detrimental ( suppressing) effect on surrounding tissues, with no immune stimulating effect.

\* Reduces scar tissue when applied topically with the assistance of alternating Vitamin E oil. A superior aid to tissue regeneration and growth.

\* Assists the healing of varicose veins and age pigmentation with the addition of Blood Purifying tonic. Take Blood Purifying tonic internally and spray the mist locally.

\* Increases the capillary growth and capillary network in injured areas to help distribute nutrients to tissues to aid healing and restoration of normal activity.

**Dose:** *Spray often on affected areas or areas of intended sun exposure. The water soluble delivery makes the frequent use essential. Re-apply after swimming*

## BEAUTY MIST CONTAINS:

**Boridiorthotic Oxybenzoic acid Zinc** (C<sub>14</sub>H<sub>10</sub>BO<sub>7.2</sub>Zn.) This formula contains a Zinc-Boron cell in the molecular biological field. This Zinc-Boron cell is a hydrated magnetic crystal that calcifies into infra-red heat. The Zinc Boron combination is a universal disinfectant and solvent which stops unhealthy germs in the human body but does not damage or kill healthy human cells. The universal solvent thins and purifies the blood and precipitates impurities from the cytoplasm of the human cells. When the oxygen level of the bloodstream is over 85% then anaerobic bacteria and viruses are destroyed.

**Over 60 Colloidal Minerals** which are trace minerals in hydrated solution. C.M's assist all enzymatic processes in the body thus assisting healing and metabolism.

**Natural Aloe Vera**, well known for its cleansing, soothing antibiotic and healing properties. The herb promotes the removal of dead skin and stimulates the normal growth of living cells. Valuable in cases of burns, itching, minor cuts and scarring. It assists the healing of internal tissues damaged by radiation exposure, such as excess sun and x-rays. It contains organic calcium, potassium, sodium, manganese, iron, lecithin and zinc. Vitamins A, B1, B2, B3, B6, B12, Folic acid, C, E. Amino acids Alanine, arganine, aspartic acid, cystine, glutamic acid, glycerine, histadine, hydroxyproline, isoleucine, leucine, lysine, methionine, phenylalanine, proline, serine, tyrosine, valine.

**Rose-water** a well known skin conditioner, hydrator and natural perfume. Rose-water also helps play an important part in the formula where vitamins A, E, C and rutin are needed for nourishment of the skin. It also contains traces of vitamins D, and P and organic iron, calcium, sodium, potassium, sulphur, silica and niacin.
